ClubSoft

Discover ClubSoft from TM Systems, a comprehensive software designed to streamline club administration and facilitate interaction with members. ClubSoft empowers your club's business.

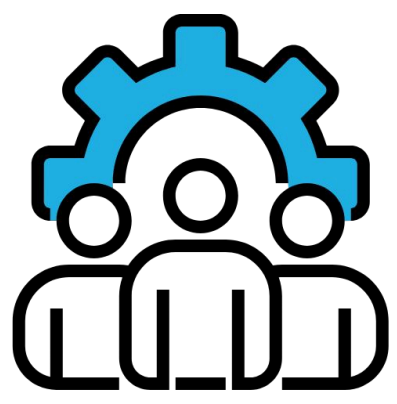

ClubSoft is Integrated software product that handles all aspects of any kind of Club, Gymkhana and sports venues. The product handles everything from member management to club operations specifically the financial aspects. ClubSoft is Web and Mobile App ready, flexible to accommodate any kind of activity your club might cater to. Members can use touch screens, kiosks, contactless cards or even bio metrics to access. The product works at major elite clubs.

The diagram above shows the different modules available in our Club Management Solution. This software system has been implemented in many clubs including at the premier Club of Ahmedabad i.e. The Sports Club of Gujarat Limited in Ahmedabad, Gujarat and Ghatkopar Jolly Gymkhana, Mumbai.

The system is completely web based developed in Microsoft .NET (MVC) technology and MY SQL Community Edition Database. It is available on premises and on subscription model (AWS Cloud Based)
